Giang-Van (acting for Tim on Friday) & Megan –

For the St. Paul hot issues due Monday noon, I just realized I should update the write-ups for Reilly Tar & General Mills. The Freeway one is fine as is. I will do that first thing tomorrow (Friday).

Yet another Hot Issues request.... Let me know if you have anything to report.

Thanks,
Tim

Subject: Hot Issue Request for Mayors Conference - St. Paul, Cleveland, Indy - Due June 10

Hello,

OCIR needs hot issue support for staffers visiting with R5 mayors attending a national conference later this month. The cities are St. Paul, MN, Cleveland, OH, and Indianapolis/Carmel, IN.

Don't worry about statewide issues or area issues. Focus on specific city issues. Here are some issues we'll need for sure:

St. Paul -- [McCaffrey development on the US Steel site](#) and other large developments with EPA involvement.

Cleveland - [WC Reed Superfund cleanup](#).

Indianapolis and suburban Carmel -- [Reilly Tar Superfund site and the good redevelopment work EPA is doing in the area](#).

Send your items to me, **John Peterson**, in Public Affairs, by **deadline: COB, Tuesday, June 10**.

I'll attach the last hot issues we did on these cities although Indy and Cleveland are aging. Again, don't worry about statewide things or range too far away from these cities proper. Focus on the most important things. You've got enough to do with the other hot issue requests.

Thanks for your help.

- john
